Manson Acquires New Property

Manson Creek Resources Ltd. (Manson Creek) is pleased to announce the acquisition of a new skarn-type project located 50 kilometres north of Whitehorse, Yukon.

The property consists of 10 properly staked and registered claims located in the Whitehorse mining district of the Yukon. The Cuprum property is located 11km to the west of the Dawson – Whitehorse highway and has ATV access directly to the property.

Reported historical grab samples have returned Copper grades of 0.3 to 17% with multi-gram silver values.

Acquisition terms allow for a 100% interest to be purchased by Manson Creek over 4 years for a total consideration of \$75,000 and the issuance of 450,000, subject to a field due diligence period ending July 31, 2005. The property vendor will retain a 2.0% NSR (Net Smelter Royalty), 1.5% of which is purchasable at Manson Creek's election for \$1,500,000.00.

This transaction is subject to all required regulatory and exchange approvals.
